Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Jung contended that Masanori fails to disclose a first frame/casing, a second frame/casing and the outer casing being joined together with a fastening part through the sides. Further, Masanori fails to disclose the liquid crystal panel having (first) side edges, the particular connections of the support frame. The English translation of Masanori was presented. The claims seem to overcome Masanori, and however further consideration and search will be needed.
